

## Cluster type advanced evaporation system for R&D purpose

ALS Technology Co., developed high end vacuum evaporation system as a flag ship model using the robot transfer arm.

This equipment is suitable for the organic device research.

This system realize the best performance by connecting KOREA KIYON glove box.  
(<http://www.glovebox.co.kr>)

We provide the most advanced system with a reasonable price.

### ■ Main specification

- 1) Robot arm chamber; hexagonal-shaped
- 2) Process chamber (total 5 vacuum chamber)
  - \*Deposition chamber 2 unit
  - 8 sources, 2 co-deposition
  - \*Plasma cleaning chamber x 1 unit
  - \*stock chamber ; 6 stage
- 3) Substrate size 100mm x 100mm
